Fax 570-775-7734

August 28, 2009

Dear Porter Township, PA Property Owner:

On March 3, 2008, the Porter Township Board of Supervisors adopted Ordinance No 2008-043 entitled "*An Ordinance Establishing A Coordinated and Uniform System For Naming Streets, Assigning Street Addresses, and erecting Street Name Signs in Porter Township, Authorizing the Township to Install Required Signs Upon Failure of the Responsible Party To Do So and To Assess the Costs of the Same; and Prescribing Penalties For Violations*". This Ordinance specifically requires all improved property within the Township to install a street number sign consistent with the new 911 numbering system.

The 911 signs are a rolled aluminum with a minimum thickness of 0.080 inches. They must be double faced with Class I, Class I-A or Class II reflective sheeting as listed by PennDOT. Said signs must have a green background and the numbers must be 3 inches high in a plain blocked uppercase font. The sign height, measured to the bottom of the sign must be a minimum of 4 feet to a maximum of 6 feet above the ground and be perpendicular to the road.

Recently, Pike County completed the street addressing system for the 911 emergency call system in Porter Township. The installation of street name signs and street number signs shall be coordinated by the Emergency Management Coordinator; Rob Hellyer.

To purchase a 911 sign from the Township please complete the attached order form and mail it to our office along with your check (no cash accepted) payable to Porter Township in the sum of \$25.00. This fee includes the sign, all the necessary hardware and installation by the Township.

If you wish to view the entire Ordinance, you may do so by logging on to our website at <http://www.portertownship.net>, click on the Ordinances tab and scroll down to 911 Addressing Ordinance.

We thank you for your anticipated cooperation.

Very truly yours,

Porter Township
